

Welcome to ASL Interpreters, Inc.

Over 10 Years of Experience

ASL Interpreters, Inc. is a full-service interpreting agency that provides qualified professional sign language interpreters in the Virginia, Maryland, and Washington, DC, markets.

A certified small and minority-owned business, ASL Interpreters, Inc. was founded to provide service to local deaf communities. While many interpreting companies have expanded rapidly into various markets, ASL Interpreters, Inc. has remained focused on the need for providing quality accommodations within local communities. Our roots help us to recognize the importance of consistency as well as consumers' language needs and preferences.

Bridging the Cultural Gap

A guiding philosophy of ASL Interpreters, Inc. is that sign language interpretation is not just about providing communication access to deaf consumers, it's also about providing the same access to hearing consumers.

To us, part of providing quality sign language interpreting services is ensuring that the communication needs of both deaf and hearing individuals are met.

Who We Are

Robert Soderholm started his professional interpreting business in 1998 as a sole proprietorship serving clients in the central Virginia region. His agency quickly expanded over the years to serve the Fredericksburg, Tidewater, Charlottesville, and Roanoke, Virginia, areas.

2004 was a milestone in the company's history, as Robert increased his clientele and branched out into the federal government sector to serve deaf federal employees. In 2005, Robert incorporated the business as ASL Interpreters, Inc., which now serves clients throughout Virginia, Washington, DC, and Maryland.

Bridging the Cultural Gap

“We are the sum total of our life experiences.”

We all view life through our own lens. Our experiences shape not only how we communicate, but also how we work with one another. To us, “bridging the cultural gap” means that we each have our own paradigms and cultural experiences that make us the unique communicators that we are. We understand that various life perspectives exist and an effective communication involves more than just translating. The root of effective communication is ensuring that everyone in the room understands one another. As interpreters, we appreciate that language and communication are about more than words.

A guiding philosophy of ASL Interpreters, Inc. is that sign language interpretation is not just about providing communication access to deaf consumers, it’s also about providing the same access to hearing consumers. To us, part of providing quality sign language interpreting services is ensuring that the communication needs of both deaf and hearing individuals are met.
